

# 24<sup>th</sup> Festival l'Espace du Son 2017

« For the birthday of renowned composer and acousmatic music pioneer Beatriz Ferreyra, l'Espace du Son wishes to dedicate to her its 24th edition. Beatriz Ferreyra will be present in person to conduct two exceptional workshops and to perform works from her repertoire during the festival closing night.

This edition will also feature a particularly vast program throughout the week: the Espace du Son international spacialization contest, four concerts by international composers, as well as a series of performances as a tribute to Beatriz Ferreyra. Other activities will take place beside the concerts: daily master classes, ear prints of composers taken by ceramist Ana Maria Asan, a live concert by Sylvie Bouteiller on Saturday night. The festival will also be the occasion to greet the release of Annette Vande Gorne's Yawar Fiesta blue-ray DVD, as well as an USB key (M&R edition) compiling musical garlands composed in tribute to F. Bayle, F. Dhomont, B. Ferreyra, C.Groult, B. Parmegiani and A. Vande Gorne. »
